About MBZUAI

The Mohamed bin Zayed University of Artificial Intelligence (MBZUAI) is established in the Emirate of Abu Dhabi, with a clear mission to drive AI knowledge creation and development, foster economic and social growth, and position the UAE as a hub for the international AI community.

The university, in addition to its academic offerings, will have a direct and indirect impact on AI advancement in the UAE in multiple ways including, but not limited to:

- Attracting international talents (students and faculty staff) and ensuring the transition to enter the UAE market
- Creating an active AI community and collaborating in AI research and publications
- Hosting conferences that attract AI experts to the UAE and the region
- Supporting technology and AI related startups in the UAE
- Supporting governments and businesses by providing AI consulting services and AI solutions/ applications
- Conducting training and workshops in various AI fields for government entities and businesses.

MBZUAI currently offers three MSc and PhD programs in the following areas of specialization: including machine learning (ML), computer vision (CV), natural language processing (NLP).

Board of trustees

The Board of Trustees (BoT) is comprised of several members including a Chairman of the Board. The BoT candidates were identified based on their knowledge and expertise in academia and AI applications across various industries. They have no financial investment in the university. The BoT has been formed through a resolution issued by the Chairman of The Executive Council. The board shall exercise all the powers needed to conduct the work of the university, supervise the management of its affairs, and achieve its objectives. The BoT meets quarterly.

**His Excellency
Dr. Sultan Ahmed Al Jaber**

Minister of Industry and Advanced Technology and member of the Federal Cabinet, Chairman of the MBZUAI Board of Trustees

**Professor Sir
Michael Brady**

Emeritus Professor of Oncological Imaging in the Department of Oncology of the University of Oxford

**Professor
Anil K. Jain**

Distinguished Professor in the Department of Computer Science and Engineering at Michigan State University

Dr. Kai-Fu Lee

Chairman and CEO of Sinovation Ventures and President of Sinovation Venture's Artificial Intelligence Institute

**Professor
Daniela Rus**

Professor of Electrical Engineering and Computer Science and Director of the Computer Science and Artificial Intelligence Laboratory (CSAIL) at Massachusetts Institute of Technology

Vision, mission and strategic objectives

Vision

MBZUAI will drive excellence in knowledge creation, transfer and the use of AI to foster economic growth, while positioning Abu Dhabi as a hub for the international AI community.

Mission

Establish and continually evolve interdisciplinary, collaborative research and development capability in the field of AI, while educating students to be innovators and leaders with the breadth and depth to grow technology and enterprise in the UAE and globally.

Strategic objectives

As a unique institution, purpose built to lead the world in AI research, MBZUAI seeks to be a paradise for transformative research; a cradle for the best minds in computer science; and a hub for startups and high-tech innovation.

Its strategic objectives are:

- Attract the best talent focused on AI
- Develop, train, and retain talent for the UAE economy
- Lead Abu Dhabi's efforts to build and sustain an AI- based knowledge economy
- Develop real business applications in collaboration with industry and the public sector to enhance innovation, productivity, and growth
- Be the birthplace for high-tech innovation and AI startups in the UA and the MENA region.

MBZUAI Overview

MBZUAI events from 2022 to 2023

2022

22 August 2022

Welcoming Diversity:

MBZUAI to welcome 127 students from over 25 countries in the third cohort of students for Fall 2022 semester.

13 September 2022

Connecting Opportunities:

MBZUAI hosted its first in-person, Opportunities Fair to connect with 38 employers from various industries and sectors.

17 September 2022

Contributing to Advancements:

27 papers accepted at the 36th Conference on Neural Information Processing systems (NeurIPS).

6 October 2022

Innovating at GITEX:

MBZUAI showcases AI research and innovation at GITEX.

30 September 2022

Advancing Language Processing: NYUAD and MBZUAI co-host 2022 Conference on Empirical Methods in Natural Language Processing (EMNLP).

22 September 2022

Global Impact: MBZUAI Faculty and students travel to Singapore to present 8 papers accepted at the 25th International Conference on Medical Image Computing and Computer Assisted Intervention (MICCAI 2022).

2023

22 December 2022

Empowering Leaders:

100 Industrial leaders graduate from joint MoIAT-MBZUAI Leadership 4.0 training program.

20 January 2023

Excellence in AI:

IBM and MBZUAI launch an AI Centre of Excellence.

1 February 2023

Celebrating Visionaries: H.H Sheikh Theyab bin Zayed Al Nahyan witnesses MBZUAI inaugural commencement – 52 students from 24 countries, including 8 Emiratis receive postgraduate degrees in Computer Vision and Machine Learning.

20 March 2023

Driving Innovation:

Infinite Brain Technologies (IBT) and MBZUAI enter a five year research and development agreement.

16 March 2023

Industry Collaboration:

MBZUAI network with industry partners at the university's second in-person internships and Opportunities Fair.

9 March 2023

Global Recognition:

MBZUAI faculty and students present 34 papers at the IEEE/CVF Conference on Computer Vision and Pattern Recognition (CVPR 2023) in Vancouver, Canada.

MBZUAI events from 2022 to 2023

28 March 2023

Nurturing Arts and Culture:
Abu Dhabi Music & Arts Foundation signs MoU with MBZUAI..

20 April 2023

Top Ranks in AI:
MBZUAI in top 20 globally in AI, CV, ML and NLP CSRankings..

26 April 2023

Youth Empowerment:
Eight MBZUAI students representing eight different countries took part in the immersive role play simulation of a COP28 session as part of the climate Ambassadors program (CAP).

4 May 2023

Recognizing Excellence:
MBZUAI President and University Professor Eric Xing named a 2023 Fellow of the Institute of Mathematical Statistics (IMS)

1 May 2023

Leading in Learning:
MBZUAI scientists have 22 papers accepted at the Eleventh International Conference on Learning Representations (ICLR 2023).

4 May 2023

Outstanding Contribution:
MBZUAI faculty members Alham Fikri Aji and Timothy Baldwin win an Outstanding Paper Award at the European Chapter of the Association for Computational Linguistics (EACL) 2023.

5 May 2023

Promoting Innovation:
MBZUAI and the Weizmann Institute of Science (WIS) hosted the first-ever Human Phenotype Project Hackathon in Abu Dhabi.

10 May 2023

Fostering AI Startups:
MBZUAI and OurCrowd Arabia sign MoU to drive funding for AI startups and research

7 June 2023

Celebrating Graduates:
Sheikh Hamed bin Zayed Al Nahyan attends MBZUAI Class of 2023 commencement ceremony

2 June 2023

International Collaboration:
MBZUAI and RIKEN (Japan's largest comprehensive research Institution Center for Advance Intelligence Project (AIIP), host a Joint Workshop at MBZUAI

Since its inception, MBZUAI has joined forces with

AIQ

Weizmann Institute of Science

Abu Dhabi Health Services Company, SEHA

Abu Dhabi School of Government

International Business Machines Corporation (IBM)

Emirates News Agency (WAM)

Federal Competitiveness and Statistics Centre

QURIS

Biomap

Malaria No More (MNM)

COP28

King Abdullah University of Science and Technology (KAUST)

RIKEN- Centre for Advanced Intelligence Project (AIP)

OurCrowd Arabia

Emirates Health Services (EHS)

Abu Dhabi Music & Arts Foundation (ADAF)

Infinite Brain Technologies (IBT)

Academic programs

Overview

MBZUAI currently offers three MSc and PhD programs in the following areas of AI specialization:

Machine learning (ML)

The scientific study of algorithms and statistical models that computer systems use to effectively perform a specific task without using explicit instructions, relying on patterns and inference instead. These algorithms are based on mathematical models learned automatically from data, thus allowing machines to intelligently interpret and analyze input data to derive useful knowledge and arrive at important conclusions. Machine learning is heavily used for enterprise applications (e.g. business intelligence and analytics), effective web search, robotics, smart cities and understanding of the human genome.

Computer vision (CV)

This scientific field studies how computers can be used to automatically understand and interpret visual imagery. It aims to mimic the astounding capabilities of human visual cortex using machine vision algorithms. It studies how an image is created, the geometry of the 3D world and high-level tasks such as object recognition, object detection, and tracking, image segmentation and action recognition. Computer vision has important applications in augmented / virtual reality, autonomous cars, service robots, biometrics and forensics, remote sensing and security and surveillance.

Natural language processing (NLP)

NLP focuses on system development that allows computers to communicate with people using everyday language. Natural language generation systems convert information from the computer database into readable or audible human language and vice versa. Such systems also enable sophisticated tasks such as inter-language translation, semantic understanding, text summarization and holding a dialog. The key applications of NLP algorithms include interactive voice response applications, automated translators, digital personal assistants (e.g. Siri, Cortana, Alexa), chatbots, and smart word processors.

Student life

The Office of Student Affairs is committed to offering MBZUAI students extracurricular activities in the areas of culture, recreation, and sports. They are committed to providing the facilities, planning, and resources needed to promote approved student activities to the best of the institution's abilities and ambitions. The university aids in the planning and coordination for the successful execution of student activities, while the performance of the activity is the responsibility of the organizers.

A sustainable and welcoming environment provides everything students need to study and live at MBZUAI.

Student events

Orientation Week

A comprehensive program for new students to familiarize themselves with the campus, programs, and peers. Packed with informative sessions from different departments and social activities and a view into campus life.

International Day

The event aimed to encourage cultural interaction and active student participation. It involved celebrating the diverse cultural heritage of students through presentations and a talent competition, showcasing their unique talents and traditions.

MBZUAI Sports Week

Sports Week is an exciting event that brings MBZUAI community to engage in friendly athletic competitions. This action-packed week serves as a platform for promoting physical fitness, teamwork, and healthy competition among students. Participants showcase their skills and dedication in a wide range of sports, including badminton, basketball and volleyball.

COP 28 Climate Ambassador Program

Students participated as climate ambassadors and were assigned a specific country to learn about the impact of climate change and develop solutions and plans to address these issues. CAP is a series of sessions leading up to COP28 end of this year.

Club Fair

An event to showcase the different student clubs available and to give an opportunity for new students to register in the clubs.

Beach Clean Up Volunteering

In collaboration with Tadweer, students participated to clean Al Bahiya Beach as part of community service and efforts towards the year of sustainability where it focused on environmental awareness and empowers them to become advocates for sustainability and environmental responsibility and driving positive change among our students.

Abu Dhabi Sustainability Week

Students participated as representatives in the MBZUAI booth, to raise awareness on how their research and studies contribute towards sustainability efforts in education, health and climate fields.

Ramadan Activities

Several events were organized to celebrate Ramadan and inform students of the meaning of the month in the country including a trip to the Abrahamic Family House to show tolerance towards other religions, an awareness session hosted by our VP Public Affairs, iftar, suhoor and quiz nights to engage the students.

Cultural and Social Trips

Trips were organized for students to experience and visit cultural and entertainment sites in the UAE such as Museum of The Future, Yas Water Park and Qasr Al Watan and Expo City.

MBZUAI students

Students at Mohamed bin Zayed University of Artificial Intelligence (MBZUAI) form a diverse and talented community of aspiring AI pioneers.

In 2022/23, students came from Top 100 CS Ranking universities, including

- Carnegie Mellon University
- Tsinghua University
- Georgia Institute of Technology
- Northeastern University
- Shanghai Jiao Tong University
- New York University
- University of Southern California
- Zhejiang University
- Chinese Academy of Sciences
- Chinese University of Hong Kong
- George Mason University
- Arizona State University
- North Carolina State University
- University of Hong Kong
- McGill University
- University of Science and Technology of China

Student achievements

In 2022- 2023, MBZUAI Students received awards from international and regional competitions

- **1st Runner up team at the Pioneers 4.0 Hackathon Series**
- **1st place at the IEEE SLT international hackathon in Qatar**
- **1st place at the Human Phenotype Project Hackathon 2023**

MBZUAI students were **offered internships** in **public and private sectors**, as well as top-level universities in the country and abroad, including

- **Abu Dhabi Ports**
- **ADEO**
- **ADNOC**
- **Ajman Digital Authority**
- **Cleveland Clinic**
- **CPX**
- **DHL**
- **Dubai Police**
- **Emotech**
- **Etihad Airways**
- **FCSC**
